

## Year report street children's project

### "The Eagle's Nest"

The purpose of this project is to raise children up to young adults, who are able to care for themselves in all their needs in a responsible way. The vision of the project is to shelter and guide neglected children up to 18 years of age, to lead them to a choice for Christ, what will enable a new way of life.

The street children's project contains three different kinds of care.

#### **Daycare** (*hosted in Bako Gabor street 79*)

The Eagle's Nest weekly hosted about 30-35 children in the daycare, who visited the project in small groups four days in a week. During this care, the children were stimulated to improve their personal hygiene, received clothes, and helped daily in preparing a hot meal. We read from the Bible with the children, had personal conversations, sang, and prayed. There is room for creative, sportive, and leisure activities.

Handcraft work of the children

Cooking as a free program in the project

The children are eating during the program

Children are getting some "presents" after the program

**Intensive afterschool care** (*hosted in Bako Gabor street 79*)

It became clear that this form of relief to children with a large backwardness in school provides in a demand. The afterschool care and the daycare are running at the same house place, but separately. It's going still in the reconstructed garage what some years with the sponsors we could renovate.

The "Teacher" with "pupils"

Pupils are doing their homework

Seven children visited this program five days per week. They received extra education and help with their homework from a school teacher. Also, they got a daily hot meal and were got in touch with the Gospel.

**24-hour care** (*hosted in Bako Gabor street 84*)

In the 24-hour care 2 boys and 3 girls found a place to live. The younger children we able to be child and develop themselves in a christian and safe atmosphere of upbringing. They were guided in going to school, in caring for themselves, and got help in all the areas of development. The older boys, who have been living here already for a longer period of time, were guided towards more independence.

### Extra activities

Fortunately last summer we could organize a very nice and busy summer camp for our children. It was really amazing that from Monday till Friday the workers had possibilities to bring many children closer and closer to God. We are all hoping these things were really kind in front of God. Also hope that we did well the justice of Jesus:

**“Let the little children come to me (Jesus), and do not hinder them,  
for the kingdom of heaven belongs to such as these”**

**Matthew 19:14**

We believe the next summer will have again possibility to organize such a nice camp as like the last one was. Again we have to say thanks to God motivate all the children’s hearts that they wanted to come for the programs. This was really unforgettable program for all of the children, because last year we couldn’t organize the summer camp.

Program for all of the children at Christmas time

Summer camp in the house N79

## Repairing and renovation

In 2016 we didn't had any big renovation, but together with our sponsors we could fix problems in the house N79 and also in the house N84. Also thanks to God we got enough money to build a Panna Football Cage for the children in the upcoming year.

Second hand computers for the children

Renovated chairs around the table

## Results of the last year and plan for 2017:

End of the year 2016 again we must have to say thanks to God of all the cares and supporters what we received in this year. We should be very happy for all bless what we received from the Lord. All the three programs could run continuously in the whole year (the highcare always postponed in summertime). We are also happy with all of the workers now, thank to them that they did their job honestly and well. Really big bless that in the projects we have a really good team now.

This year our financial possibilities were already better. Till September of 2016 all the three projects were run in very economic way, but from September we receive bigger amount for our needs. We are very thankful to God for this possibility. The foundation Stichting Oekraïne Projecten becomes a new partner of the Eagle's Nest. All of us are very happy with them. They are now involved in the projects of The Eagle's Nest. God bless them to all their work what they doing for us. End of the 2016 we could see the positive effects of the structural changes what we made in 2015. We believe in 2017 we can continue our work and do for the glory of God. These are our goal for the upcoming year.

*"He (Jesus) took a little child whom he placed among them. Taking the child in his arms..."*

*Marcus 9:36*

*Sanyi Fodor, Beregowo, December 2016*
