

"The Eagle's Nest"

Year report of the street children's project

The purpose of this project is to raise children up to be young adults, who are able to care for themselves in all their needs in a responsible way. The vision of the project is to shelter and guide neglected children up to 18 years of age, to lead them to a choice for Christ, what will enable a new way of life.

The street children's project contains three different kinds of care.

Daycare (hosted in Bako Gabor street 79)

The Eagle's Nest weekly hosted about 30-35 children in the daycare, who visited the project in small groups four days in a week. During this care, the children were stimulated to improve their personal hygiene, received clothes, and helped daily in preparing a hot meal. We read from the Bible with the children, had personal conversations, sang, and prayed. There are possibilities for creative, sportive, and leisure activities.

Handcraft work in the program

Enjoying the received trampoline

Daycare program for the children

Intensive afterschool care (hosted in Bako Gabor street 79)

It became clear that this form of relief to children with a large backwardness in school provides in a demand. The afterschool care and the daycare are running at the same house place, but separately. It's going still in the reconstructed garage what some years with the sponsors we could renovate.

5-8 children visited this program five days per week. They received extra education and help with their homework from a school teacher. Also, they got a daily hot meal and were got in touch with the Gospel.

The children are in the highcare room

Dinner in the house N84

24-hour care (hosted in Bako Gabor street 84)

In the 24-hour care 5-7 children found a place to live. They were guided in going to school, in caring for themselves, and got help in all the areas of development. The older children, who have been living here already for a longer period of time, were guided towards more independence. All the kids could feel the love and the attention of the workers and firstly the love from God. We are very happy that all our children could get a well care in the last year and that they didn't have to miss anything in their life.

Extra activities

Last year the end of summer together with the people from our partner organization we were able to organize such a very nice and exciting summer camp for our children. It was really amazing that from Monday till Friday the workers had possibilities to let meet many children how big our God. We are really hoped that all these work were really kind in front of God. Also hope that we did well the justice of Jesus:

**“Let the little children come to me (Jesus), and do not hinder them,
for the kingdom of heaven belongs to such as these”**

Matthew 19:14

We believe that in the next summer we can continue and do it again. Specially thanks for all the people who came from Holland and to help us to do. Without them we couldn't organize such a nice camp. Again we have to say thanks to God that he motivated all the children's hearts that they wanted to come for the programs. This again was an unforgettable program for all of the children.

Summer camp games...

...and handicraft work

The group of the summer camp with our guests from Holland

We are also happy that we could organize a very nice Christmas celebration in the end of 2017. All the children together could praise the Lord and could thank to Him for the last year. Just like in the end of summer also the end of the year all of the children in our three different projects received presents. These presents are really important in the life of them. Not all the families are able to provide any presents for their children. Thanks for all the help that we could do this!

Christmas celebration with all of the children...

... in the house N79

„Present beg” for the children to begin the school

Christmas presents and packages for the children

Repairing and renovation

In 2017 together with our sponsor we were able to fix some important needs in our projects. Some examples from all what we had in the last year:

- Replace the old gas furnace in the 24 hours care house and connect to the heating system
- Bought a new gas cooker into the kitchen of the daycare programe, because the old was very broken and dangerous already

The new (left) and the old gas furnace in the house N84

The old and the new gas cooker

The Panna football cage...

..and the playing children in it

- build a Panna Football Cage for the children in the backside garden of the house N79
- bought a lot of different sports instruments for the children. It came from a success tenders
- new venetian blinds for some windows of the house N84

Sports instruments for the children

Venetian blinds for the windows in the house N84

Results of the last year and plan for 2017:

First of all we must have to say thanks to God for all the blessing what we received in this year. We are very happy that He stands behind our project. Last year all the three programs again could run continuously (except the highcare what always postponed in summertime). Very thanks to all of the workers that they did their job honestly and well.

In 2017 our financial possibilities were good, even if the life costs very increased in Ukraine. All the three program could run with a normal budget, and didn't need to do economic. All of the workers but especially the children are happy with it. We are very thankful to God for this possibility.

In 2018 with a big hope we are looking forward in that we can continue our work with our sponsors. Most of the sponsoring money was provided by the **Stichting Children's Relief** and by the **Stichting Oekraïne Projecten**.

"He (Jesus) took a little child whom he placed among them. Taking the child in his arms..."

Marcus 9:36
